

# Private Allied Health Services in Midwest and Gascoyne

NOTE: this information is accurate as possible at the time of writing but may be subject to change without notice.

Please contact WACHS if information is more than 3 months out of date from time of provision. Providers are by no means limited to those listed.

Individuals will need to contact providers to determine if the service meets their needs and can support them in the location they prefer.

Individuals should discuss their health needs with their GP.

## **Support to Access Private Services**

Children who have a chronic medical condition can request a **GP Management Plan (GPMP)** from their doctor. A chronic condition is one that has been present for 6 months or more, such as an ongoing developmental delay in one or more areas of development, or repeat ear infections.

Once you have a GPMP in place your child can access up to 5 free visits to a private Allied Health service every calendar year.

The 5 visits can be made up of a single type of service (e.g. private Speech Pathology), or multiple types (e.g. private Physiotherapy and Speech Pathology)

Some Perth providers may offer services such as intensive groups on the school holidays, you may find a range of providers to contact on the internet.

The National Disability Insurance Scheme (NDIS) is a national system that offers supports to people with disability. This is run by the National Disability Insurance Agency (NDIA). To get services through NDIS you need to complete an 'access request'. You can do this by:

- Calling 1800 800 110
- Visiting your local NDIS office - In Geraldton / Carnarvon, this is at the Centrelink office. For other locations see <https://www.ndis.gov.au/contact/locations>
